### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 9-11, 18-20, 23-24, 26, 32-33, 40-43, 45-46 and 48-53 were cancelled.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach an adjustable stop comprising a sleeve, and shaft having an end with a face, where the shaft is connected to the sleeve by threads such that rotation of the shaft varies the distance between the face and the shuttle vise as set forth in claims 54 and 55.

Harris teaches a feed conveyor 81, a machine tool 21, a shuttle vise (93 and 94) and an adjustable stop (132 and 133). However, Harris's stop uses a cylinder 98 and rod 131, instead of the shaft connected to the sleeve by threads such that rotation of the shaft varies the distance between the face and the shuttle vise as set forth in claims 54 and 55.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
